

The Arizona

Pet Project

Supporting Families. Saving Pets.

Vision

A safer and healthier community for all people and pets.

Mission

The Arizona Pet Project creates systemic change and provides resources, so no families are forced to balance their own basic needs of food, shelter, and safety and the needs of their companion animals, often the only meaningful connection they have.

Values

Companionship that enriches the life of pets, their families and the community.

Empowerment for families by providing guidance, resources and support to care for their beloved pets.

Compassion for pets and their families who are enduring hard times.

Commitment to finding solutions to keep pets and their families together.

Respect for pets and their families who bring love, joy and companionship to each others' lives.

Equity for individuals and families of all socioeconomic backgrounds who wish to enjoy pet ownership.
